Do you want to have your family, friends or associates view your bread-crumb trail of your adventures directly on Google Maps in real-time? Now you can!

Welcome to “SPOTcasting”, a revolutionary way to share your experience of using SPOT Satellite Messenger with friends, family or an audience with new web-based mapping, GPS tracking and broadcast email tool. Set-up a URL through the shared pages feature on your account at www.findmespot.com for your friends to view your GPS points. Don’t forget to send the link to those you know or have SPOT send the link by filling out some fields under your shared pages account feature. This real time feature uses the Google Maps that we all love.

Share your adventure with just a few simple steps:

1. Log in to your account at http://login.findmespot.com

2. Click on the "Share" tab

3. This will bring you to the view below. Then click on Create Shared Page. From here, you can set up a share page. You can open the link of a newly created share page and share it with your friends and family by copying, pasting and emailing the link of the page after you open it.

When you come back to your account. You can always create more shared pages or see the existing ones that you've created under "Manage Shared Pages". Have fun sharing your adventure!
